SENIOR SOFTWARE ENGINEER

With a talent for building good relationships

JOB DESCRIPTION

Your job will be to take part in the further development of our technical documentation solution, including design. You will be required to dig into technical details and programming, but also assist in technical management of projects where you create a professional and rewarding project environment and develop good relationships with all interested parties.

SKILLS AND EXPERIENCE

- You have a degree in engineering, computer science or similar
- You easily comprehend complex IT solutions
- You have some experience in technical management
- You are experienced in several of these areas:
 - Java, J2EE and Google Web Toolkit
 - XML, XSLT and XPATH
 - Spring, Maven and Eclipse
 - Oracle Weblogic and IBM Websphere Application Server
- You speak and write Danish and English fluently

PERSONAL QUALITIES

- You are outgoing, visionary and a good communicator
- You are a team player and a fine motivator
- You have a great deal of drive and strong commitment
- You are structured and quality-conscious
- You have a good sense of humour

CORENA OFFERS

An exiting and stimulating job in an international atmosphere working with state-of-the-art technology and talented colleagues. Competitive conditions, influence of own job situation, a high degree of flexibility and a good sense of humour go without saying.

APPLICATION

Please forward your application in English as soon as possible to career.dk@corena.com.

For further information about the position, please contact VP HR, Ruth Hansen, +45 4594 9407.
