

Pratt & Whitney signs contract with CORENA

A CORENA PRESS RELEASE

FOR IMMEDIATE RELEASE

Denmark, Copenhagen - 16 February 2009

Pratt & Whitney signs contract with CORENA for support of F135 program

Pratt & Whitney has signed a contract with CORENA to purchase CORENA's Life*S1000D suite of software tools to develop and produce publications for the F135 engine powering the F-35 Lightning II. The signed contract also includes the development and production of publications to support Pratt & Whitney's Pure Power® commercial geared turbo fan engine. The contract is valued at US\$400 thousand with the potential for other contracts to support other Pratt & Whitney partners and suppliers as well as additional business units across United Technologies. Pratt & Whitney is a United Technologies Corp. (NYSE:UTX) company.

"We are proud to place this critical work with CORENA who has a unique capability to create innovative solutions in support of our F135 customers," says Ed O'Donnell, director, Pratt & Whitney international programs and business development. "CORENA has a proven track record of quality and customer support as well as a willingness to proactively partner with their customers to deliver world class, interactive publications products and services."

*"Our contract with Pratt & Whitney is a major breakthrough for CORENA in the global aerospace and defence market for technical publication systems. The selection of CORENA and Life*S1000D is yet another evidence of the acceptance of our comprehensive solutions and offerings in a competitive market. Our engagement with Pratt & Whitney has a long term strategic perspective, that would include other UTC companies and partners to Pratt & Whitney in the years to come," says Toralf Johannessen, President and CEO of CORENA.*

"Pratt & Whitney has an ongoing commitment to promoting business in Denmark both on the military side of our business with today's work placement announcement, as well as on the commercial side of our business with CORENA's support to the Pratt & Whitney's commercial Pure Power® family of engines," O'Donnell says.

ABOUT CORENA

CORENA is a global software development company with subsidiaries and representation in 10 countries. CORENA is one of the world's foremost suppliers of Commercial-Off-The-Shelf products managing the production, publishing, distribution, and use of technical documentation for complex equipment. CORENA's products are widely used, primarily by customers within the Aerospace and Defence industry utilizing recognized international standards like ATA iSpec 2200 and ASD/AIA S1000D. CORENA's systems and industry knowledge have been essential to longstanding business relationships with companies, who publish, manage and use structured, XML/SGML based, content to enhance their business.
