

## CORENA and MilSOFT ICT signs partnership agreement

CORENA PRESS RELEASE

### FOR IMMEDIATE RELEASE

Kongsberg, Norway, 5 November 2009

### CORENA and MilSOFT ICT are announcing the signing of their strategic partnership agreement

The strategic partnership aims at bringing together CORENA's S1000D lifecycle documentation capabilities and MilSOFT ICT's integrated logistics lifecycle support and management information system capabilities as complementing products. Both CORENA of Norway and MilSOFT ICT of Turkey have been involved in S1000D standardization activities and have been developing technologies that support the product lifecycle processes.

Standards such as S1000D enables a better support, improved system availability, improved safety and decreased lifecycle cost. S1000D is gaining increasing attention around the world, and is being adopted by most of the new commercial and military aerospace programs. The S1000D specification is used in the development of aircrafts, surface ships, submarines, tanks, armored vehicles, missiles, weapon systems, electronic equipment, and other products that require close attention throughout the product lifecycle, from concept to retirement.

The cooperation between CORENA and MilSOFT in Lifecycle Management of high-tech products promises synergies for strengthened competitiveness in our target markets and, will advance industrial cooperation between Norway and Turkey.

*"Turkey is a country with high focus on development of advanced defense technologies, and a high awareness for life cycle support information. We are very pleased to have entered into a strategic partnership with MilSOFT ICT and we have great expectations that the synergy of MilSOFT ICT's and CORENA's capabilities will be beneficial for both the Turkish and Norwegian industry, and thereby further increase the growing success of our products in the international market",* says CORENA's Toralf Johannessen, CEO.

*"Corena and Milsoft ICT's collaboration, which fuses the design & development and maintenance stages of modern-technology product lifecycles, is a step towards bringing closer our two countries, Norway and Turkey, on the European fringes of NATO around state-of-the-art technologies",* says Tunc Teber Torosdagli, General Manager, MilSOFT ICT.

#### ABOUT CORENA

CORENA is a global software development company with subsidiaries and representation in 10 countries. CORENA is one of the world's foremost suppliers of Commercial-Off-The-Shelf products managing the production, publishing, distribution, and use of technical documentation for complex equipment.
